

All Branch Chiefs

6 May 1947

Assistant Director for C & D

Admiral's Tuesday Morning Conference

1. General Wright informed all Assistant Directors at the conference this morning that certain changes in the organization of CIG were contemplated, to take effect on 1 July 1947. They have been discussed with [redacted] who is preparing the basic reorganization necessary. The changes mentioned are the following:

25X1A

a. The General Counsel will be moved to the Office of the Director and will absorb the present Legislative Liaison group.

b. There will be added to the Executive Staff a group for inspection, auditing, and security. This security group will eliminate the present Security Branch under OGD, and for the present at least no further thought will be given to the establishment of a separate Office of Security.

2. This does not change OGD's present directive that each Branch Chief shall review his own organization with a view toward recommendations for changes within OGD. It only emphasizes the need for completing action thereon and getting approval by the Director prior to 1 July. [redacted] has separate instructions to discuss the arrangement for the new security set-up directly with [redacted]
